

night by Senators Pepper and Reed of Pennsylvania.

International President John L. Lewis of the miners' union returned here to-day from the Washington meeting and immediately summoned District President William Brennan of Scranton, Thomas Kennedy, Hazleton, and C. J. Golden, Shamokin. International Vice President Philip Murray will also participate in the miners' conference.

There is no present plan for a resumption of joint conferences. Miners and operators will report separately to Senator Pepper and the next move will depend upon the nature of the replies received.

Legislation authorizing President Harding to operate the anthracite mines and railroads should be left out of the legislative programme for the remainder of the Senate session to-day.

Senator Lodge, Republican leader, after a conference with the steering committee, announced the order of business in the Senate after passage of the bonus bill. Consideration first of the Borah and Cummins Coal Hills and the Librarian loan, the Capper-Tincher grain gambling bill and the Dyer anti-lynching bill in the order named.

This move was made to satisfy growing opposition to legislation authorizing the President to take over the mines and roads, though the program as announced might be changed at any time an impelling sentiment for this measure arose.

HARDING ASKED FOR 1,000 INSPECTORS OF ENGINES AT ONCE

Shopmen's Committee Wires Him After Commerce Board's Report.

John C. Ready, Chairman of the System Federation of Shop Crafts of the New Haven Railroad, declared to-day that there had been no desertions by strikers in spite of statements to the contrary. He said the only men who had returned to work were elderly men who feared loss of pensions and were advised to return.

The New Haven to-day said the railroad has not curtailed passenger service and declares that business is being handled on a normal basis "without any substantial inconvenience to either the travelling or shipping public."

President Harding was asked to-day for the railroad shopmen's Central Strike Committee for the Metropolitan District to appoint immediately 1,000 Interstate Commerce Commission emergency inspectors of locomotives. The request was made in a telegram sent to the President by Chairman John J. Dowd for the committee.

The need for the immediate expansion of the Interstate Commerce Commission inspection force is based by Mr. Dowd on the information given in the committee's report to the Senate yesterday on the conditions of the carriers' locomotives as related to public safety.

The number of shopmen working on the Pennsylvania Railroad system yesterday rose above 93 per cent. of a full normal working force, with \$1,132 men on duty, an increase for the week of \$17, and a gain from the low point of the strike, July 6, of 13,547.

BRONX GRAND JURY FEARS COAL FAMINE

Four Plans of Action Are Adopted.

The Bronx County Grand Jury for August started an inquiry to-day into the coal situation as it affects that county and were told by representatives of the coal leading companies in the Bronx that the borough is in a bad way, as far as fuel is concerned. These concerns were the Stephens Fuel Co., McLaughlin and Weiser, Jeyer and Cramer, Burns Bros., and the Street Coal Co.

Acting District Attorney Alderman conducted the inquiry and declared that the Bronx authorities to suspend operation of the ordinance forbidding the use within the city limits of soft coal. This would prevent a famine in the Bronx, he said.

Before adjourning until next Tuesday the following recommendations were decided upon:

Proclamation to landlords requesting that they lay in supplies of soft coal; request to Gov. Miller that in naming a Fuel Administrator he appoint a man familiar with conditions in the Bronx; lifting of the ban on soft coal by the city, and requesting Commissioner Baugh to survey the Bronx to learn its needs.

WOMAN'S BODY FOUND IN GENESEE RIVER.

ROCHESTER, Aug. 30.—Police to-day are attempting to unravel the mystery which surrounds the discovery of the body of a young woman in the Genesee River here early last night. The body was taken from the water near the Lower Falls. The woman appeared to be about twenty years of age, was garbed in clothes of rich material and wore her hair bobbed.

HARDING YEARNS TO GO TO CONEY ISLAND, BUT CAN'T

Would Like to Ride Roller Coaster and Ring Canes.

WASHINGTON, Aug. 30.—President Harding would like to get away from the worries of the rail strike, the tariff and the bonus to ride the roller coaster and ring canes for an evening at Coney Island, he told Senator Calder to-day, but he doubts whether his yearning can be satisfied in the immediate future.

Consequently he withheld acceptance of an invitation extended by the Senator and by Representative Bond of New York, to attend the Coney Island Mardi Gras.

HARDING REVEALS HIS INTENTIONS IN DUAL STRIKE CRISIS

Will Ask Seizure Power Only if Railroads Fail to Distribute Coal.

SEES PLENTY OF FUEL.

Whole Situation Depends on Transportation, Is View of President.

By David Lawrence.
(Special Correspondent of The Evening World.)

WASHINGTON, Aug. 30 (Copy-right).—President Harding has unbosomed himself in the last twenty-four hours to his Cabinet and callers on the plans he has in mind for dealing with the national emergency growing out of the rail and coal strike.

The President revealed first of all that, while he has no fixed policy and is depending more or less on day to day developments, his duty and responsibility in certain eventualities are clear in his mind.

The whole situation, Mr. Harding thinks, depends on transportation. Enough hard coal will be available because the President feels certain the anthracite situation will be settled in a few days. Statistics laid on the Cabinet table showed the soft coal tonnage is satisfactory and that no shortage will develop if the coal now being mined can be distributed. The shopmen's strike is interfering with transportation.

Mr. Harding has been, in the midst of a debate between two sets of advisers, those who favor and those who oppose Government operation of anything. Enough arguments have been advanced by both sides to make Mr. Harding aware of the terrific responsibilities which would be involved.

Furthermore, outside the Cabinet, there has been a pressure of two groups, one of which insists that to take over mines or railroads would be playing into the hands of the unions, as they are said to want Government operation because it means better wages, and the other, which declares that the unions do not want Government operation because the Government's method will be virtually to uphold the employers by giving Federal protection.

At first glance the latter view might seem clear, but what Mr. Harding knows is that, if he has to take over the roads, he will have to depend upon the present railroad executives to run them and that the men will be working for the same individuals as they now oppose, under Government operation.

He promises not to use the authority except in dire emergency and believes Congress ought to trust to him to use the right sort of judgment as to the existence or non-existence of an emergency.

Mr. Harding realizes Congress might not want to give him this blanket power, so he hesitates to ask for it, because if he asks and Congress does not grant it, the effect would be to hurt Republican members of Congress upon whose heads the political responsibility for lack of fuel might be thrust.

The President made it clear to those who discussed the matter with him that for the moment he will not ask for the power in any formal way. If Congress sees fit to grant it, Mr. Harding will be gratified but he will not insist for the present.

The policy then is to see whether the railroads can operate efficiently enough to carry coal. If they can't, Mr. Harding will make the next move and will call Congress back if it happens to be in recess.

PITTSBURGH MINES ARE REOPENING TO-DAY

Capacity Production Assured Within Two Weeks.

PITTSBURGH, Aug. 30.—There is work for every one of the 45,000 union miners in the Pittsburgh district, union leaders declared to-day, while they circulated word that the Pittsburgh Coal Producers' Association had signed a supplemental agreement on the basis of the Cleveland settlement.

Practically every mine in this section, with the exception of some of those owned by the Pittsburgh Coal Company, has been reopening to-day. Hundreds of miners were cleaning out the pits, reinforcing the walls and taking other precautions against danger resulting from inactivity. Within two weeks, operators and miners agreed, capacity production will be assured.

PICKED BY ARTIST AS ONE OF 12 MOST BEAUTIFUL WOMEN

DOLORES COSTELLO

Arriving here, a mere few hours following her selection by Neysa McMein, painter of feminine beauty, as one of the twelve most beautiful women in America, Dolores appeared well worthy of the honor, and was voted the most beautiful woman aboard the S. S. Olympic. This photo shows Dolores on her arrival here.

FATHER M'GEAN, CHAPLAIN OF FIRE DEPARTMENT, DEAD

(Continued from First Page.)

fire to head every project for the relief of firemen and their families and in the direction of the general church charities of the city.

Father M'Gean's death is due directly to arterio sclerosis, following an attack of influenza which he contracted in France on a visit to the battlefields after the war. He had been in bad health for a year. He died at 5 o'clock this morning after a sinking spell of several days.

He will be buried with the full honors of a Battalion Chief of the Fire Department from St. James's Church Saturday morning at 10 o'clock.

Acting Chief Joseph Martin said on learning of the former Chaplain's death:

"The firemen of New York have lost as good a friend as they ever had. Father M'Gean was a conspicuous figure in the department at its best. His bravery and devotion to duty have often been noted in the newspapers; as a counselor and an aid in the family life of the firemen and among the poor of this city, he did many acts of which only those to whom he ministered knew."

Father M'Gean was born in this city. He attended St. Mary's Parochial School and Niagara University and Dunwoodie Seminary. He took minor orders in 1903 and full orders a year later. He was admitted to the priesthood in 1905 by Cardinal Farley, then archbishop. His first clerical service was at old St. Bridget's Avenue A.

He was curate of the Church of Our Lady of Good Counsel when appointed chaplain by Fire Commissioner Joseph Johnson in June, 1917, after his bravery in climbing a 50-foot ladder under toppling cornices to administer the last rites to a dying woman in an East 31st Street tenement had been called to the attention of Mayor Gaynor as one of a long succession of similar deeds of bravery.

He was for a time a member of the clergy of St. Patrick's Cathedral and became rector of St. James in 1917. He resigned in Dec., 1917, as chaplain because of the pressure of his duties as Director General of Catholic Charities and as head of the activities of the Catholic Works.

ERIE GETS WRIT AGAINST SHOPMEN

Restraining Order Is Returnable Tuesday.

TRENTON, Aug. 30.—A temporary injunction against members of Federated Railroad Shop Crafts and allied unions, forbidding them, and any individual, from interfering with the operation of trains and the business of the Erie Railroad was issued to-day by Judge Joseph L. Bodine in the Federal District Court.

Application for the injunction was made by the railroad as a result of disturbances at Jersey City owing to the railroad strike. The restraining order is returnable in Newark next Tuesday.

The order names the Jersey City police and names specifically two Jersey City policemen who are alleged to have aided strikers by attacking railroad detectives and who were arrested by a Deputy United States Marshal.

The order prohibits the order from confederating, co-operating, conspiring or combining in any way to interfere with the operation of the railroad or the duties of its employees.

STOCKS AGAIN SOAR IN RISING MARKET TO HIGHER LEVELS

Practically Every Group Joins in the Forward Movement.

There was a further pronounced upswing in the stock market this morning which carried the average of prices up to a new high mark for the year. Numerous issues were able to show gains of more than 2 points, while gains compared with the low marks of yesterday ranged all the way from 2 to more than 8 points.

The rise was impressive because of its breadth as well as the extent of the gains, that is, practically every group joined in the forward movement.

American Telephone was one of the many stocks that touched a new high for the year. It sold at 127, a rise of 10 over the price established shortly after the new stock issue was recently announced. Columbia Gas rose 5, and Consolidated Gas 3 1/4.

Advances of a point or more were numerous among the higher priced rail stocks, the movement in this group being influenced by the announcement that loadings of revenue freight in the week ended Aug. 19 increased 15,438 cars compared with the previous week and an increase of 41,073 cars compared with the same week last year.

The bond market also reflected increased financial optimism and on an increased volume of trading gains ranging from good sized fractions to more than a point were registered. Transactions for the day totaled slightly more than a million shares.

SAY BENJAMIN WAS INCAPABLE OF MAKING A WILL

U. S. Mortgage and Trust Company Appointed Trustee of Estate of Lawyer.

In preparation for the threatened contest of the will of Park Benjamin, late of No. 270 West 73d Street, the United States Mortgage and Trust Company in Surrogate's Court to-day obtained an order from Surrogate Foley appointing the company administrators of the estate.

The will was offered for probate yesterday when it became known that Mr. Benjamin disinherited his five children, bequeathing them \$1 each.

In the petition of the trust company Calvert Brewer, Vice President, declares he has been informed by one of the disinherited children that they will contest the probate of the will on the grounds that their father was incapable of making the document; that he was unduly influenced, and on other grounds. In view of his belief that there will be a long delay before final adjudication, and because of the absence abroad until October of Mrs. Dorothy B. Caruso, one of the children and widow of the late Senator, Mr. Brewer asks that the trust company be appointed administrator.

In citing the value of the Benjamin estate, Mr. Brewer says it consists of about \$15,000 in real property, having a yearly rental income of \$5,000, while his personal property, consisting of securities, jewelry, paintings, etc., will not exceed \$300,000. The income from the latter is said to be about \$15,000.

Anna Bolche Benjamin, an adopted daughter, was made a specific bequest of \$60,000. To the widow was bequeathed the residuary estate which goes to the adopted daughter upon Mrs. Benjamin's death.

IRISH REBELS SEIZE AUTO FROM U. S. PRIEST

Warned Not to Touch, Halted 20 Miles From Dublin.

DUBLIN, Aug. 30 (Associated Press).—American tourists attempting to see Ireland are returning to Dublin deeply disappointed and strong in their condemnation of conditions in the provinces.

Recently, despite advice given them, two young American priests rented an automobile and started out sightseeing. They had gone only twenty miles from Dublin when they were halted by troops, presumably Republicans, who showed American passports, but, according to their account, these brought them nothing but laughter, and they were forced to alight from their car, which the soldiers appropriated. The priests made their way to the nearest town in a donkey cart.

HARDING SPURNS BONUS CHANGES

Make Bill More Objectionable. He Tells Callers.

WASHINGTON, Aug. 30.—White House callers who discussed the bonus with President Harding to-day came away with the impression that the Executive regarded the addition of the McNary reclamation and Stimmons' foreign debt amendments, adopted yesterday in the Senate, as making the measure more objectionable than it was in its original form.

BABY LEFT IN CRIB WHEN HOUSE BURNS IS RESCUED UNHURT

Mother and Child Saved After Fumes of Insecticide Set Curtains Ablaze.

The fumes of an insecticide Mrs. Anna Alagori was using in her apartment on the second floor of No. 2064 Third Avenue became ignited to-day and set fire to the bed clothing and the window curtains.

Mrs. Alagori made unavailing efforts to tear down the burning curtains and stamp out the flames, meanwhile screaming for help. The fire spread rapidly through the apartment and the house filled with smoke. Three of Mrs. Alagori's five children ran to the street.

Policeman Omar Ames of the East 104th Street Station and neighbors answered Mrs. Alagori's cries. Ames carried the woman downstairs in his arms. Her hands were badly burned and she was unconscious from inhaling smoke. Ames went back and carried out her five-year-old daughter, Gemma, who was slightly burned about the body.

The little girl said her nine-month-old sister, Gloria, was still in her crib in the apartment. A fireman went into the apartment and found the baby unhurt.

Mrs. Alagori and Gloria were taken to the Beth David Hospital for treatment. Water caused about \$5,000 damage to the stock of the Levy Hareim Furniture Company on the ground floor.

MURDER CHARGE AGAINST WEALTHY ROCHESTER MAN

Witnesses Say De Witt at Party Boasted of Fight With Tailor.

ROCHESTER, Aug. 30.—Owen Dewitt, millionaire clubman and real estate operator, was to-day charged with murder, first degree, after the slaying of J. Frank O'Connor, tailor, in the latter's store here Monday. O'Connor died from the effects of a battle, which police say began over a stenographer.

Dewitt was brought to this city last night after his arrest in a Syracuse hotel. Because of his mental condition, due, it is said, to excessive drinking, arraignment on the charge was deferred until to-morrow.

Witnesses questioned to-day in the preliminary examination told of attending a corned beef and cabbage party with De Witt an hour after the crime, at which they may be boasted of the fight with the tailor. They say after the luncheon De Witt returned to the tailoring establishment, stepped over the body of the dead man, washed his hands and obtained a grip which he took to Syracuse. To-day when he was asked if he denied knowledge of the crime, saying his mind was a blank from heavy drinking.

His counsel, it is understood, will make a motion to-morrow to have his client released on bail.

U-111 TO BE SUNK FOR THE LAST TIME

Rescued Twice, Naval Officers Will Sink Her Off Virginia Capes.

PORTSMOUTH, Va., Aug. 30.—The U-111, former German submarine cruiser credited with having sent at least ten ships to the bottom of the Atlantic, is to be buried in the open sea to-day. She will be taken 20 or 30 miles off the Virginia capes, where her valves will be opened and she will be allowed to sink in about 300 feet of water.

A year ago while being towed to Lynnhaven Roads to become a target for air bombing she went down while in tow. She was floated to the navy yard on pontoons, but went down again. The navy men then decided to let her remain there until she was ready to be towed to sea.

SHOT AS TRUCK FIRES CARTRIDGE IN STREET

Rear Wheel Explodes Shell as Man Leaps From Army Car.

When James McQuay of No. 5402 Second Avenue, Brooklyn, a laborer, jumped out of the rear of a United States Army truck in 58th Street, Brooklyn, to-day, he was shot in the ankle by a bullet from a cartridge which was lying in the street, and exploded as it was run over by a rear wheel of the truck.

He was treated by an ambulance surgeon from the Norwegian Hospital and went home.

DIES AT 102 FROM HER FIRST ILLNESS.

ROCHESTER, Aug. 30.—Mrs. Almira Chapman, 102 years old, is dead at her home in Brockton, a village near here. She was taken ill for the first time in her life on her birthday eight weeks ago. Mrs. Chapman was born on Onondaga County in 1820, when Western New York was a wilderness.

OHIO GIRL SEEKS BEAUTY TITLE AT ATLANTIC CITY

MISS LORAIN FOSKEY.

She has been chosen as the handsomest girl in Toledo to represent that city in the national beauty contest at Atlantic City.

MORE VIOLENCE IN RAIL STRIKE

Dynamite Found on Michigan Central Tracks.

CHICAGO, Aug. 30 (Associated Press).—Continued bomb outrages and other forms of violence marked the first daily chapter of the nationwide railway strike to-day.

The end of the tie-up on the Chicago and Alton came early to-day when striking trainmen at Slater, Mo., agreed to return to work. Their action followed similar steps by C. and A. men at Rockhouse, Ill., and by train crews and switchmen on the Elgin, Joliet and Eastern, at Joliet, Ill.

A Michigan Central section foreman at Cheboygan, Mich., discovered a dynamite cap and bomb on the right of way near that city. The discovery was made just before an express train was due to pass.

A bomb was thrown from a passing automobile at the door of the Missouri Pacific roundhouse at Baring Cross, a suburb of Little Rock, Ark. Guards opened fire at the fleeing machine. None was injured.

A Deputy United States Marshal and five others were fired upon at Fort Smith, Ark.

Guards patrolled the right of way of the Illinois Central at Princeton, Ky., following the destruction of tracks by dynamite yesterday.

WITNESSES BALK AT HERRIN INQUIRY

One Refuses to Answer, Others Forget Names.

MARION, Ill., Aug. 30. (Associated Press).—The Grand Jury investigation of the Herrin massacre opened yesterday with at least one witness refusing to answer questions and others forgetting the names of the mob. The witnesses who refused to testify were placed in custody and will have to explain to Judge Hartwell.

Employees of an electric railway between this town and Herrin, one of the first witnesses called. They are said to have seen the march of the mob on the strip mine just before the massacre.

LADY COP DRAGS TOWN SOAK TO JAIL BY THE COLLAR

Strong Arm Good Enough for Her—No Patrol Wagon Needed.

No more man is going to give Mrs. Margaret Doyle, newly appointed police woman of Bayonne, the merry ha ha, she made clear to-day. Instead of calling a wagon when she saw one of the town soaks in the gutter, Policewoman Doyle grabbed him by the collar and dragged him to the Municipal lock-up.

"I read in the papers about the woman Marshal at Des Moines, N. D., who quit her job because man she was going to arrest just laughed at her," said Mrs. Doyle. "They're not going to laugh as long as I wear a star."

"That man was so intoxicated that he was slow down the gutter. I saw a crowd was gathering so I didn't wait for the wagon but dragged him down the sidewalk to jail. I think I'll be able to dispense with the patrol wagon altogether."

AUTOIST IN CRASH CLAIMS AL SMITH AS HIS RELATIVE

Intoxicated and Flew Scene Until Halted by Shot, Police Charge.

Walter E. Smith, who claims to be a cousin of former Gov. Al Smith, was in custody of the police of Brooklyn to-day following a crash between an automobile—he was driving and a milk wagon and a resultant chase in which a shot was fired by a policeman, who charges that Smith abandoned his demolished machine and attempted to escape. Smith was accompanied by two other men, who got away.

The prisoner, who said he is a salesman and lives at No. 170 East Fourth Street, Brooklyn, was held in ball of \$500 by Magistrate O'Neill in the Gates Avenue Court, Brooklyn, on a charge of driving a car while intoxicated, and while in court was served with a summons calling for his appearance in the Brooklyn Traffic Court to-morrow on a charge of leaving the scene of accident without reporting to the police.

Smith and his two companions were driving west on Eastern Parkway, Brooklyn, at 5:10 o'clock this morning when the crash occurred. The milk wagon, driven by William Carr, twenty-eight, of No. 450 61st Street, Brooklyn, pulled out of Schenectady Avenue and was struck broadside by the machine. Carr was hurled to the pavement and was taken to St. John's Hospital with severe lacerations of the head and a possible fracture of the skull.

Policeman Schreck of the Atlantic Avenue Station heard the crash and came up in time, he says, to see three men running from the demolished automobile. He gave chase and followed the one who later proved to be Smith into a cellar three blocks away at Lincoln Place and Utica Avenue. Schreck claims that Smith reached toward his hip pocket, whereupon the policeman fired a shot into the ceiling. Smith dropped to the floor and surrendered.

AUTOIST IS KILLED AS ENGINE HITS CAR

Steven Arlenta of Spring Valley, N. Y., was instantly killed to-day when the auto he was driving was struck and demolished by a New Jersey and New York Railroad train at a grade crossing near Park Ridge, twelve miles north of Hackensack.

The impact of the locomotive threw the automobile to the platform of the Park Ridge Depot, injuring Mr. and Mrs. William Harris of Park Ridge, who were waiting for a train. Both the latter were given first aid and went to their home. The body of Arlenta was badly mutilated.

GRAPPLING FOR AUTOS CONTAINING TWO BODIES

Missouri River Still Holds Cache of Wrecked Cars.

KANSAS CITY, Mo., Aug. 30.—Two dead men, lashed to the steering wheels of automobiles piled on the bottom of the Missouri River near Nearman, Kan., are bandits who have been buried in this way by members of their gang, Under Sheriff David Kepler believes.

An expensive roadster was hauled from the river yesterday, and attempts to raise others of the dozen or more buried cars were started to-day. Corpses of a white man and a Negro are in two of the automobiles.

A. Shreveaman, a farmer living near the river at Nearman, informed Sheriff Wright that he and his family had heard a series of revolver shots on a recent Sunday night at the spot where search for the supposed dead men is now being made. He had frequently noticed lights of automobiles in the lonely clearing. He had not investigated, he said.

SECRETLY EXILING SOVIET OPPONENTS

Political Police Use Old Czarist Methods.

RIGA, Aug. 30 (Associated Press).—Revels by the Russian Soviet Government of the old Czarist "administrative exile" has restored to the political police, the Cheka's successors, the power of dealing secretly with Soviet enemies.

Sudden arrests and exile without trial of scores unfriendly to the Soviet or suspected of counter-revolutionary tendencies has created a new mild reign of terror.

Many are being exiled to the same places in Siberia, where the Bolsheviks were sent by the Czar.

An Italian Trade Mission employee in Moscow is said to have been kidnapped in the streets and taken to prison. The head of the Mission threatened to withdraw from Russia unless he was immediately released. He was freed, it being called a case of mistaken identity.

U. S. PLANT IN SALONICA WIPED OUT BY FIRE

Total Loss in Blase Placed at \$1,025,000.

SALONICA, Greece, Aug. 29.—The damage caused by Saturday's fire in the commercial quarter here has proved to be greater than at first estimated. The warehouses of the Alston Tobacco Company were destroyed, while the plant of the Standard Tobacco and Commercial Trading Corporation was seriously damaged. Both companies are American.

The total loss is estimated at 50,000,000 drachmas (\$1,525,000), most of which is covered by insurance.
